

What are we looking for?

The Trust's priorities will change from time to time. The current themes are;

- Health, Happiness and Wellbeing
- Education
- Environment
- Creativity

We will prioritise applications that

- Are closer to Bermondsey Square
- Affect larger numbers of people
- Attract other funding
- Are for continuing rather than one off activities
- Are simple to administer

We expect that people and projects we invest money in will report the benefits they have secured back to us and the final payment will be dependent on receiving this report.

We also expect to see invoices from suppliers to support each claim. For organisations with limited reserves we are prepared to pay suppliers direct. However applicants will need to be organisations and have a bank account.

How much?

We expect to spend around £40,000 each year. We have no maximum or minimum size of grant but will prefer applications between £250 and £1000.
